

Biography

Adam Czajka is an Associate Professor, the Galassi Family Collegiate Professor in the Department of Computer Science and Engineering at the University of Notre Dame, and the Director of the AI Trust and Reliability (AITAR) Lab, with over 25 years of professional experience in biometrics, security, and machine learning. His primary research interests focus on the reliability of biometric recognition, recently emphasizing modern artificial intelligence methods. Prof. Czajka is generally fascinated by a wide range of research in computer vision and machine learning, as well as the non-obvious intersections with psychology, medical sciences, and art, which often involve high-risk but high-reward outcomes. His research has been funded by the US National Science Foundation (including NSF CAREER award), US Department of Defense, US National Institute of Justice, FBI Biometric Center of Excellence, NIST, IARPA, US Army, European Commission, Polish Ministry of Higher Education, and various companies.
