Teaching methods	classes										
Assessment method	classes – exercises, assessment work during classes										
Symbol of learning outcome			Reference to the learning outcomes for the field of study								
								l understands			
L01	Unde	erstan			ls of fi						
L02	of fin calcu	Skills: the graduate is able to           Students identifies, classifies and analyses the elements           of financial plan and uses computer software for data           calculation									
LO3		can calculate costs of banking products and services									
LO4	choo	knows a type of credits and loans student and is able to choose the best offer									
LO5	Students know the limitations of their knowledge and are aware of the changes taking place on the financial										

	markets. Consequently, they understand the need to						
	expand the knowledge and skills they already have.						
	Social competence: the graduate is ready to						
LO6	applies ethical principles and norms during classes						
Symbol of learning outcome	Methods of assessing the learning outcomes	Type of tuition during which the outcome is assessed					
L01	Student prepares a project and presentation on its results	(	5				
LO2	Student prepares a project and presentation on its results, assessment work during classes	С					
LO3	Student prepares a project and presentation on its results, assessment work during classes	С					
LO4	Student prepares a project and presentation on its results, assessment work during classes	С					
LO5	classes – evaluating the student's performance in classes	С					
LO6	classes – evaluating the student's performance in classes	C					
	Student workload (in hours)	No. of hours					
	participation in classes	30					
	preparation a project	25					
	preparation for classes	15					
Calculation	participation in consultations	5					
	TOTAL:	75					
	HOURS	No. of ECTS credits					
Student worklo	vorkload – activities that require direct teacher participation 30 1,						
	75	3,0
