

English for Architecture

Description:

You are going to learn career-specific vocabulary needed by architectural professionals as well as improve your English communication in a work environment.

Depending on the group you are in, you'll study some of the following topics: styles in architecture, sustainability, people in architecture, basic math, shapes and structures, materials and their properties, types of art, iconic buildings, bridges, towns and cities, parts of a building, etc.

You will join an existing group of Polish students. That is why you'll have to meet Foreign Language Centre Erasmus Coordinator first. Please expect more information by e-mail before the beginning of the academic year.

Regular attendance and active participation are required.
