Branch : Computer science

Programme : Erasmus +

Semester : Winter semester

Academic year : 2020/2021

Receiving university : Politechnika Bialostocka

City : Bialystok

Host country : Poland

There are no words that I can express with it , how much I enjoyed this new experience in my life ,In such beautiful european country as Poland Which I always dreamed of visiting one day, When I got this opportunity from my home university, I was very happy and excited, but I was kind of afraid that I did not speak the Polish language, how can I deal with the people of this beautiful country !

But I was excited, and my fear ended when I visited **the Polish embassy** in my country, **Algeria**, to submit a visa application. The embassy staff were at the top of kindness and good dealings with me, so my enthusiasm for visiting this friendly country increased, And get to know this wonderful people.

How was my study period at ***Bialystok University of Technology*** ?

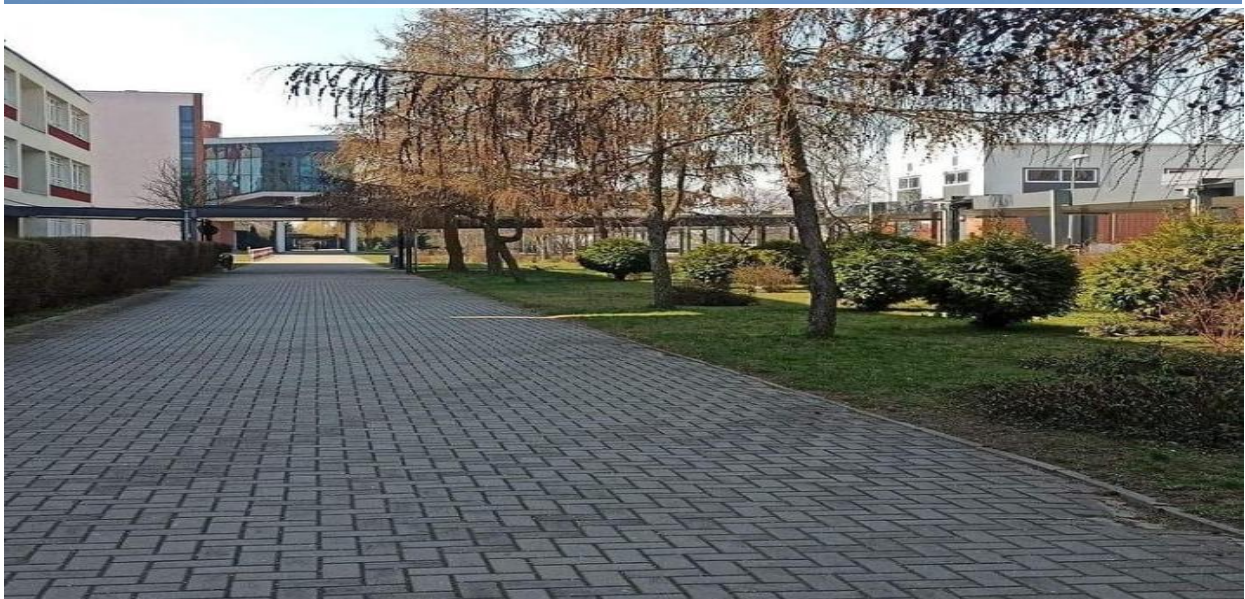

When I arrived in the beautiful city of Bialystok , I went directly to the Office of International Relations, to receive my papers and tell them about my arrival. Frankly, the **university's staff** were at the height of magnificence and excellent dealings with us,

From the start of the study until the end of this semester, if I had a problem or had an inquiry, I was directly talking to the university staff via email, in a short time I was getting an answer, and this is what made me respect this wonderful university and relate to it ,

In addition to the quality, transparency and good treatment of education that I received from the professors of this university

In addition to that, this university is very elegant and beautiful :

Bialystok :

Also, this opportunity made me get acquainted with a very wonderful and beautiful city, the city of Bialystok, an ancient city, with places of great magnificence and beautiful such as palace branicki...

In addition to the beautiful gardens and forests that I enjoyed hiking in, especially during this snowy period, it is really an impressive city,

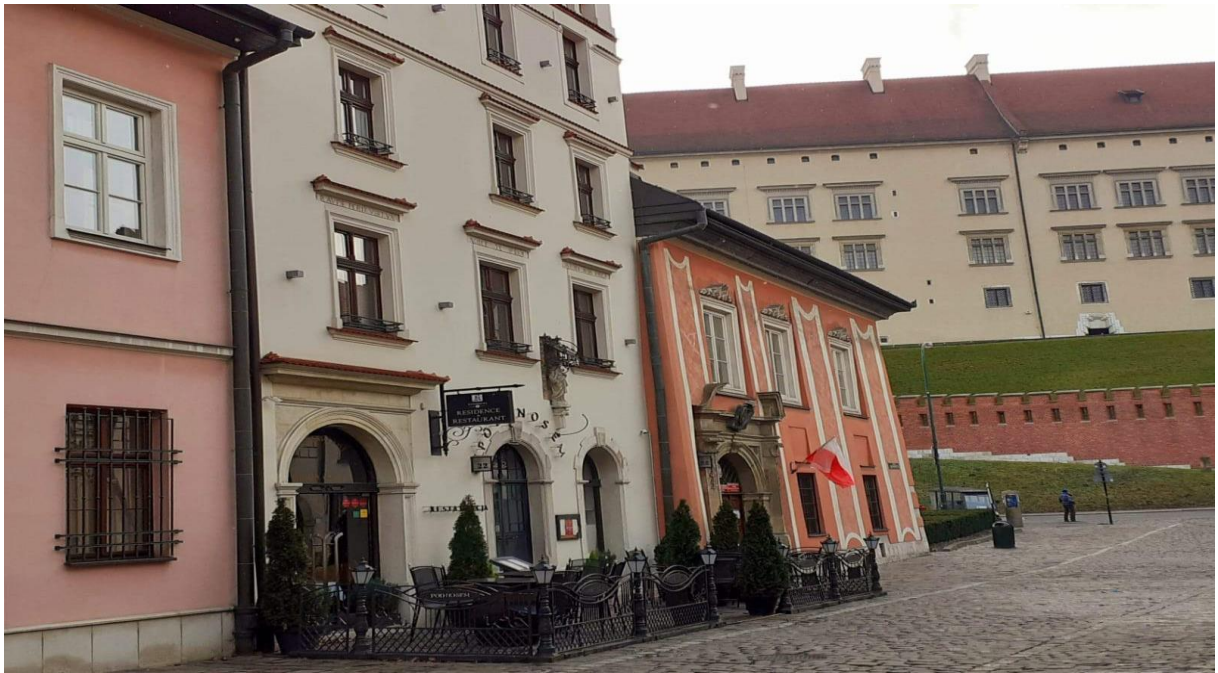

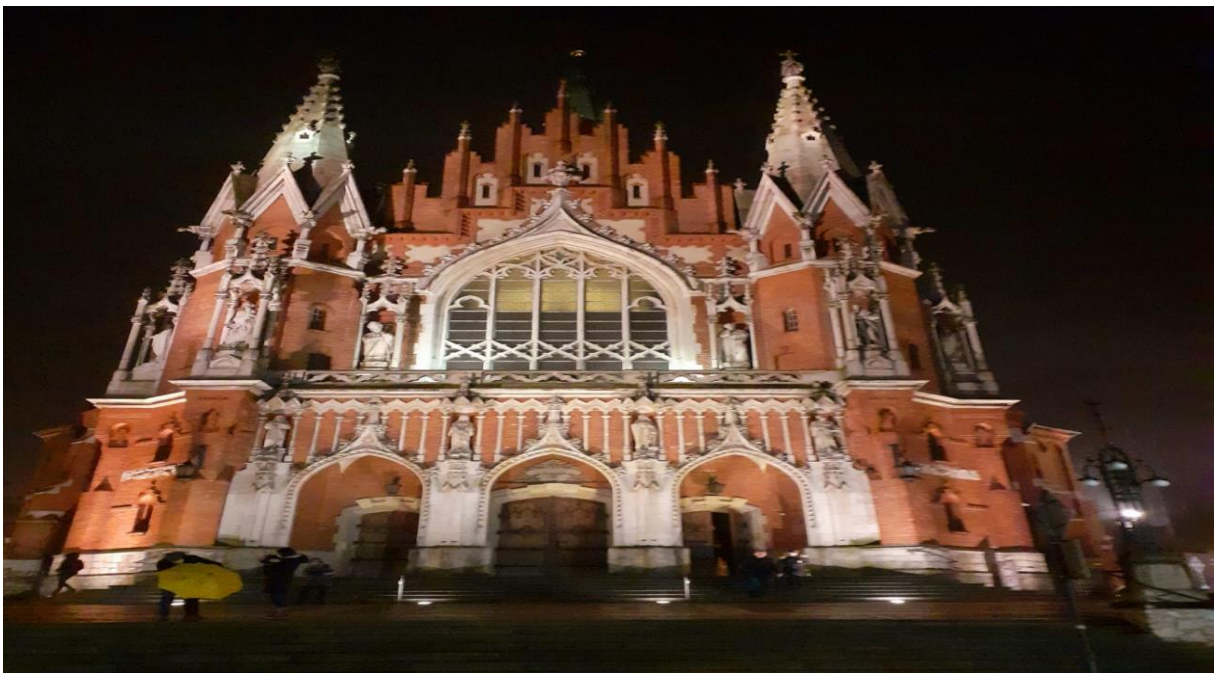

I also have some memories of beautiful Krakow, a really charming city

Dziękuję Polsce, która przyznała mi ten zaszczyt .
