

ERASMUS BLENDED INTENSIVE PROGRAMME

MANAGING VIRTUAL INTERDISCIPLINARY MULTICULTURAL TEAMS

Date: November 25- December 12, 2024

3 ECTS

Have you ever found yourself wondering why working with other people is sometimes challenging? This becomes even more difficult when we work virtually, a trend that has increased in popularity during COVID-19 and continues to do so. This is because we are all different, especially when we come from diverse backgrounds, cultures, and disciplines. The BIP on “Managing Virtual Interdisciplinary Multicultural Teams” will allow us to understand virtual interdisciplinary teams better and how to manage them effectively, as we will be working in virtual interdisciplinary teams ourselves during this project.

Primary plan

Phase 1. Online. November 25-28. *Get familiar with virtual interdisciplinary multicultural teams!* Introductory lectures and online team-building activities.

Phase 2. Onsite. December 2-6, 2024. *Explore!* Meet with your team members physically, visit companies, work on their challenges, and explore Lithuanian and other participants' cultures.

Phase 3. Online. December 9-12, 2024. *Summarize and present!* Summarize teamwork on company's challenge and present results.

School of Economics and Business, Kaunas University of Technology, Kaunas, Lithuania

Responsible hosts:

Prof. dr. Vilmantė Kumpikaitė-Valiūnienė vilmante.kumpikaite@ktu.lt

Assoc. Prof. dr. Kęstutis Duoba kestutis.duoba@ktu.lt
