

## **Erasmus+ Internship Offer at Brno University of Technology, Faculty of Civil Engineering – Brno, CZECH REPUBLIC**

**We warmly invite second- and third-cycle students of the Faculty of Civil and Environmental Engineering at Bialystok University of Technology to participate in the international internship program at Brno University of Technology in the Czech Republic.**

Brno University of Technology is one of the leading technical universities in the Czech Republic. It has been operating continuously since 1899 and educates over 17,000 students. In addition to internships, the university also offers Bachelor's and Master's degree programs entirely in English.

The university offers a tailor-made internship program to suit individual needs. To determine the details such as internship duration, dates, and research topic, please contact Ms. Anna Motejzíkova Popsilová via email at: [anna.popsilova@vut.cz](mailto:anna.popsilova@vut.cz) Once the details have been arranged with the Czech university, please get in touch with the Erasmus+ Coordinator at the Faculty of Civil and Environmental Engineering as well as with the Department of Mobility and International Agreements.

Students who qualify and sign an Erasmus+ internship agreement with the Czech university may be eligible for financial support from Bialystok University of Technology, depending on available funds. To receive an Erasmus+ internship grant, students must contact the Department of Mobility and International Agreements no later than 2 weeks before the planned departure with the required documents. Information about the required documents for Erasmus+ internships can be found [here](#).
