8. HIGHER EDUCATION IN POLAND

8.1. Criteria of accessing the higher education system

The total number of years until graduating from school enabling the graduate to take the Baccaalaureate (school-leaving) examination is 12 to 15. After having passed the Baccaalaureate examination, the student receives the Baccaalaureate certificate entitling them to apply for admission to universities.

8.2. Higher education system

The principles of functioning of higher education in Poland are specified in the Act of 20 July 2018 – Law on Higher Education and Science (Journal of Laws of 2018, item 1668 as amended). State universities are created by a state body. University studies are conducted as full-time or part-time first-cycle (BA, BSc, etc.) studies, second-cycle (MA, MSc, etc.) studies or uniform Master's degree studies. Full-time first-cycle studies last at least 6 semesters, and if the curriculum includes learning outcomes allowing for obtaining engineering competences – at least 7 semesters. Full-time second-cycle studies last from 3 to 5 semesters. Full-time uniform Master's degree studies last from 9 to 12 semesters. Part-time studies may last longer than their equivalent full-time studies. Qualifications obtained as a result of graduation in the higher education system are classified at the appropriate level of the Polish Qualifications Framework, specified in the Act of 22 December 2015 on the Integrated Qualifications System (Journal of Laws of 2018, item 2153 as amended). The diploma of completing first-cycle studies confirms full qualification at Level 6 of the Polish Qualifications Framework. The diploma of completing second-cycle studies and the diploma of completing uniform Master's degree studies confirm full qualification at Level 7 of the Polish Qualifications Framework.

8.3. Professional titles given to university graduates:

- 1) licencjat, inżynier and equivalent professional titles: inżynier architekt, inżynier pożarnictwa, licencjat pielęgniarstwa, licencjat położnictwa – are granted to graduates of first-cycle studies,
- 2) magister, magister inżynier and equivalent professional titles:
 - a) magister inżynier architekt, magister inżynier pożarnictwa, magister pielęgniarstwa, magister położnictwa – are granted to graduates of second-cycle studies,
 - b) lekarz, lekarz dentysta, lekarz weterynarii, magister farmacji, magister inżynier architekt – are granted to graduates of uniform Master's degree studies.

8.4. ECTS credits

Numbers of ECTS credits required to obtain the diploma of completing:

- first-cycle studies: at least 180 ECTS credits,
- second-cycle studies: at least 90 ECTS credits,
- uniform Master's degree studies: at least 300 ECTS credits (for 9- or 10-semester studies) or at least 360 ECTS credits (for 11- or 12-semester studies).
